More Taxes Are NOT Needed - in Alabama Now! Vote "NO" on Amendment No. 1

August 28th

Voters of our State have been proved right in their rejection of the tax-raising Goodwyn Amendment last December 6th, in spite of threats that our schools would close if it failed to pass. Our schools did NOT close and they won't. Meanwhile teachers' salary raises have been put into force.

School Taxes Show Sensational Gains

Tax collections from key levies which support Alabama schools are almost \$19 million ahead of collections during the first ten months of the 1954-55 fiscal year.

Commenting on soaring school revenues, widely-read columnist Hugh Sparrow wrote August 2nd in The Birmingham News:

"What this means to the general public is that sufficient funds will be collected this year to pay the educational appropriations in full. Furthermore it probably means there will be a surplus on hand when the State's fiscal year ends Sept. 30, 1956. For parents and school teachers it should be an assurance that teachers will keep their \$600 a year pay boost indefinitely and that schools should get a good start at the beginning of the next school term."

In brief, there is far less reason now to raise taxes than eight months ago when the Goodwyn Amendment was overwhelmingly defeated.

And remember this-Amendment No. 1 is NOT an added tax on "corporations only." It's a pass-it-on Tax Amendment that all the people of Alabama would finally pay.

Vote August 28th as you did last December 6th AGAINST MORE TAXES that are not needed now in Alabama.
